TURNKEY PRE-CONFIGURED OR  
ENGINEERED-TO-ORDER SOLUTIONS

## TURNKEY PRE-CONFIGURED OR ENGINEERED-TO-ORDER SOLUTIONS

Our experienced application engineers work closely with our clients to design pre-configured standard drive packages or custom engineered control panels that meet our clients' specification, application, and delivery requirements, helping them optimize system performance, simplify installation, and minimize downtime.

Whether you are designing controls for pumps, fans, or for general industrial automation, we deliver superior system performance, reducing your operational costs.

Our pre-configured or engineered-to-order solutions include a wide variety of enclosures, power, and control configurations. Typical design features include:

- > NEMA enclosures
- > Main power supplies
- > I/O options
- > Cooling fans, heaters, or other cooling methods
- > Start and stop pushbuttons
- > Forward/reverse selector
- > Hand/off/auto selector
- > HMIs
- > Harmonic filters/line reactors
- > Disconnect switch
- > Power terminals
- > Exhaust filters

- 1 DOOR MOUNTED LCP - LOCAL CONTROL PANEL
- 2 UL FUSING, VFD PROTECTION
- 3 VARIABLE FREQUENCY DRIVES
- 4 DOOR MOUNTED INDICATOR LIGHTS
- 5 480 VAC & 120 VAC CIRCUIT BREAKER PROTECTION
- 6 THERMOSTAT FOR COOLING FANS
- 7 CURRENT SWITCHES
- 8 INCOMING CIRCUIT BREAKER PROTECTION WITH THROUGH DOOR DISCONNECT
- 9 THERMOSTAT CONTROLLED HEATER
- 10 EXTERNAL 480 VAC - 120 VAC CONTROL POWER TRANSFORMER
- 11 POWER DISTRIBUTION
- 12 COOLING FANS AND FILTERS
- 13 TERMINAL CONNECTIONS FOR EASY FIELD WIRING

Our regional support allows for on-time, reliable turnaround services, from application and sourcing, to installation, maintenance, and repair; helping users minimize maintenance downtime, and extend equipment life and operational range, while keeping it operating reliably.

Our newly constructed 54,285 sq ft facility is built to house electrical and mechanical pump assembly, service equipment, and perform repairs.

### CAPABILITIES

Our operational capabilities include:

- > Engineering / pre-engineered solutions - drawings for specification
- > Overhead rail cranes (2-ton and 10 ton) to support large mechanical/electrical assemblies
- > Light manufacturing capabilities including turning, boring, milling, drilling, and tapping as well as high pile racking storage in the warehouse
- > 10' x 20' expandable paint booth to provide custom colors and epoxy paint
- > 508 UL and cUL certified shop in electrical panel assembly and hazardous location certification separate ESD room for electrical board repair

### SERVICES

Our services include:

- > Complete custom solutions - engineered pump packages and skids and controls panels
- > Foundation systems and baseplates
- > Equipment in-house repairs - pumps, drives, PLCs, and circuit boards
- > Installation, start-up, and commission assistance
- > Laser alignment
- > Vibration analysis
- > Upgrades, retrofits, and re-ratings
- > Extended warranty options
- > Field services
- > Subcontract labor and assembly
- > Additional services upon request
